

TRIMBLE AGRICULTURE MANAGER

ASSET MANAGEMENT SOLUTIONS

TRIMBLE AGRICULTURE MANAGER ASSET MANAGEMENT SOLUTIONS

Agriculture today is challenged with the coordination of more equipment doing more jobs across wider regions.

Trimble's Agriculture Manager™ solution is an asset management system targeting the manager who seeks improved productivity of agricultural vehicles and assets on their farming, equipment leasing, contracting and / or custom application operation.

Trimble's Agriculture Manager is an asset management solution that saves you time and money by optimizing your asset utilization, improving the timeliness of machine servicing and by efficiently coordinating multiple vehicles throughout your operation. The Agriculture Manager system is a client/server hosted application allowing you to monitor your operations from any where in the county or world simply by logging into your secure account.

Trimble® Agriculture Manager is a member of the Trimble Connected Farm™ suite of software and service solutions.

Manage your vehicles or assets across your operation

Monitor equipment movements relative to geo-fenced zones

Display asset or vehicle movements via a 'breadcrumb trail' on a background aerial image

Track your operational activities and productivity via either Map, Status, Reports, Charts or Dashboard views

Track event activities such as vehicle starting, stopping, speeding or sensors triggered such as sprayer on or off

GET TRIMBLE AGRICULTURE MANAGER TODAY AND GET CONNECTED TO YOUR OPERATION

Agriculture Manager features & benefits include:-

- Seamlessly transfer data between field equipment and the main office using a cellular communication one- or two-way data link
- Quickly identify equipment productivity and efficiency using reports, charts or dashboard tools
- Reduce fuel and maintenance costs by tracking machine hours or mileage for more timely servicing

- Dispatch and optimize the coordination of equipment during busy field periods including tender trucks with sprayers or harvesters with haul-out equipment
- Improved operator and site safety
- Assist with theft recovery of any assets
- Receive cell phone alerts as key events happen

Trimble Agriculture. The line everyone follows.
